\* The designation "Primary" has been applied to Irish Clergy Schools, since 1861, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Secondary" since the original definition that the possession of a foreign language in the school means a higher standard of general instruction than is to be found where such an object is wanting.

#### NOTE.

It has been considered desirable (as in 1871, 1881, and 1891) that those of the public who might not require or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access to a small set to the statistic of the Territorial Division in which they may have a more immediate interest; and as in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Down; and propose giving at an early date similar Tables for the City of Belfast upon completing the series.

## COUNTY OF DOWN.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Down from the Census Returns of 1901.

### SUMMARY.

The (Administrative) County of Down covers an area of 637,926 statute acres, or 2.9 per cent of the total area of the country. Area

The number of persons in the County of Down according to the Census was—in 1891, 319,605; and according to the recent Census, 305,689 (97,609 Males and 108,080 Females), or 6.2 per cent. less than in 1891. Population (Table 1)

The number of distinct Families in the County at the time of the late enumeration was 46,619, the average number of persons in a family being thus 4.4, and the number of Inhabited Houses was 46,500, showing an average of 4.4 persons to each house. In calculating these averages, the Special Tenants of Public Institutions have been omitted. Families and Inhabited Houses (Table viii)

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 32,726, or 70.2 per cent. of the total number of families in the County, and of these 2,045, or 6.2 per cent., were occupiers of one room; 11,838, or 35.4 per cent., occupiers of two rooms; 11,038, or 33.7 per cent., occupiers of three rooms; and 7,806, or 16.7 per cent., occupiers of four or more rooms. Occupiers of less than 5 Rooms (Table ix)

The number of Tenements of One Room in the County was 2,045, comprising 785 cases in which the room had only one occupant; 948 where the room had 2, 3, or 4 occupants; 249 cases in which there were 5, 6 or 7 occupants; and 85 cases where the occupants exceeded 7 in number, including 17 cases of 10 persons, and 5 of 11 persons in the room. One Room Tenements (Table x)

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901; and the increase or decrease during the decade.— By Districts (Table xi)

\* New Banbridge Rural  
† New Belfast Rural

‡ New Carrisburgh Rural  
§ New Water Road

From the foregoing Statement it will be observed that there were increases in Banbridge Urban, Bangor Urban, Holywood Urban, Belfast No. 2 Rural, and Kilkeel Rural; the highest per-centage taking place in Bangor Urban, viz., 78.0, and the lowest in Banbridge Urban, viz., 2.1. There were decreases in all the other County Districts; the highest per-centage of decrease being in Lisnaga No. 2 Rural and Banbridge No. 1 Rural, viz., 18.2 and 19.8 respectively, and the lowest in Newtownards Urban and Dromore Urban, viz., 0.9 and 2.2 respectively.

Of the persons enumerated in the County in 1901, 85.61 per cent. were born therein; 9.40 per cent. in other Counties of the Province of Ulster; 1.87 per cent. in Leinster; 0.40 per cent. in Munster; 0.28 per cent. in Connaught; 2.49 per cent. in Great Britain; 0.45 per cent. were born abroad; and 6 persons were born at sea. Birthplaces of the Inhabitants (Table xii)

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas.

The County contains nine such Areas, viz., Banbridge, Bangor, Dromore, Holywood, Newry, Newtownards, Comber, Donaghadee, and Downpatrick. In 1891 the population of these Areas amounted to 43,710; in 1901 it was 46,732, showing an increase of 2,022 persons, or 4.6 per cent.; in the rural portions of the County the decrease was 9.8 per cent. Civic Areas (Table xiii)

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Down in 1901.—

Religious Professions	1901.	
	Number of Persons	Per-centage of Total Population
Roman Catholics	66,467	21.7
Protestant Episcopalian	47,383	15.5
Presbyterian	50,021	16.4
Methodist	4,390	1.4
All other Denominations (and Religion unascertained)	9,827	3.2
Information refused	21	0.0
<b>Total</b>	<b>305,689</b>	<b>100.0</b>

Religious Professions (Table xiv)

From the above Table it will be seen that of the total population of the County in 1901, 21.7

per cent. were Roman Catholics, 22·9 per cent. Protestant Episcopalians, 86·9 per cent. Presbyterians, 2·1 per cent. Methodists, and 4·8 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 29·8 per cent.; Protestant Episcopalians, 22·2 per cent.; Presbyterians, 29·9 per cent.; Methodists, 2·1 per cent.; and members of all other Denominations 5·0 per cent. of the population of the County.

The following Statement shows the Educational status of the Inhabitants of the County of Down in 1851 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years:—

DEGREES OF ELEMENTARY EDUCATION.	Rate per cent. of Total Population.	
	1851.	1901.
Read and Write, . . . . .	67·4	73·5
Read only, . . . . .	11·9	7·7
Illiterate, . . . . .	20·7	18·8
Total . . . . .	100·0	100·0

From the above it will be seen that whereas, according to the Returns of 1851, only 67·4 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 73·5 per cent. could do so; that the per-centage of the population who could "read only" in 1851 was 11·9, and in 1901, 7·7; and that the per-centage of the "illiterate" fell from 20·7 in 1851 to 18·8 in 1901.

In 1891 11·1 per cent. of the inhabitants aged five years and upwards were illiterate (10·8 per cent. of the males and 11·5 of the females); in 1901 the per-centage was 9·6 (9·6 of the males, and 9·6 of the females).

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 17·0 per cent. of Roman Catholics, 9·1 per cent. of Protestant Episcopalians, 4·9 per cent. of Presbyterians, 4·8 per cent. of Methodists, and 4·3 per cent. of "all other Denominations" were illiterate.

The number of children attending school in the County of Down, according to the Census of 1891 (week ending 30th May), was 23,262, or 46·5 per cent. of persons aged 5 years and under 20 in the County; in 1901 the number returned (for week ending 11th May), was 29,253, or 52·4 per cent. of the persons aged 5 and under 20.

In 1901 the number of persons in the County of Down returned as Sick on the night of the Census, was 1,121, or one in every 184 of the population; of this number 712 were at their own homes, and 409 were in hospital.

The number of persons returned in 1901 as receiving relief under the Poor Law System was 2,747, or one in every 25 of the population; 753 of these being in the Workhouses, and 1,994 on outdoor relief.

For the purpose of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of Marriages registered in the County of Down (exclusive of Belfast Union, part of) during the ten years ending 31st March, 1901, was 10,780, equal to an average annual rate of 5·8 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4·6 per 1,000.

The number of Births registered in the County (exclusive of Belfast Union, part of) during the ten years was 47,889, affording an average annual rate of 23·8 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23·0 per 1,000.

The Deaths registered during the decennium amounted to 20,017, being equal to an average annual rate of 10·5 per 1,000; the corresponding rate for the whole of Ireland was 12·2 per 1,000.

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Down, amounted to 7,837 (4,442 males and 3,425 females); the number for the decade ending 31st March, 1891, was 25,628; for that ending 31st March, 1881, 31,122; for that ending with March, 1871, 26,270; and for that ending with March, 1851, 47,906, making a total of 128,783 for the fifty years.

(a) The remainder of Ferris Town is in the D.E.D. of Moneybeg and Town of Newry; this portion stands on the townland of Ballybeg, in which the area and valuation are included. The value here contains 124 persons.

(b) The decrease was attributed to migration and removals.

(c) The decrease is attributed to the absence of agricultural labourers.

(a) The Civil Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 5,000 inhabitants and upwards.  
 (b)—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—  
 The value or condition of a house, as to its quality, may be considered to depend mainly on—  
 1st. Its extent, as shown by the number of rooms, 2nd. Its quality, as shown by the number of its windows, and 3rd. Its ability or disability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a row of such of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale comprised of all the elements, i.e. their relative value.  
 Two classes have been assigned, and the result is that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window, in the third a better description of houses, varying from one to four rooms and windows, and in the second, what might be considered a good frame house, having from five to nine rooms and windows, and in the first class of all houses of a better description than the preceding.  
 The accommodation which the houses afford has also been arranged under four classes, viz.—  
 First Class accommodation consisting of 1st class houses, occupied by one family.  
 Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 3rd class houses, occupied by two or three families.  
 Third Class accommodation consisting of 2nd class houses, with one family each, or 3rd class houses, with two or three families, or 4th class houses, occupied by four or five families.  
 Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

#### NOTE.

It has been considered desirable (as in 1871, 1881 and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Fermanagh; and propose giving similar Tables from time to time for each of the remaining Counties of the Province, at such intervals as the progress of the work will permit.

## COUNTY OF FERMANAGH.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Fermanagh from the Census Returns of 1901.

### SUMMARY.

The (Administrative) County of Fermanagh covers an area of 457,360 statute acres, or 2·2 per cent. area. of the total area of the country.

The number of persons in the County of Fermanagh according to the Census was—in 1881, 84,879; Population. (Table 10.) in 1891, 74,170; and according to the recent Census, 65,430 (33,231 Males and 32,199 Females), or 17·6 per cent. less than in 1881.

The number of distinct Families in the County at the time of the late enumeration was 14,456, the average number of persons in a family being thus 4·5; and the number of Inhabited Houses was 14,128, showing an average of 4·6 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted. Families and Houses. (Table 10.)

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 10,458, or 72·6 per cent. of the total number of families in the County, and of these 2 were occupiers of part of a room only; 754, or 5·2 per cent. of the total number of Families in the County, were occupiers of one room; 3,070, or 21·2 per cent., occupiers of two rooms; 4,678, or 32·2 per cent., occupiers of three rooms; and 2,145, or 14·9 per cent., occupiers of four rooms. Occupiers of less than 5 rooms. (Tables 10 & 11.)

The number of Tenements of One Room in the County was 757, comprising 992 cases in which the room had only one occupant; 320 where the room had 2, 3, or 4 occupants; 59 cases in which there were 5, 6, or 7 occupants; and 6 cases where the occupants exceeded 7 in number, including 2 cases of 2 persons and 1 of 11 persons in the room.

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1881 and 1901; and the decrease during the decade.— By Districts. (Table 10.)

County Districts	Population.		Decrease between 1881 and 1901.

Total, . . . . .	74,370	65,430	8,940	11·9

\* Not Enniskillen Rural.

† Not Enniskillen Rural.

‡ Not Irvinestown Rural.

From the foregoing Statement it will be observed that the highest per-centage of decrease in the County Districts took place in Ballyshannon No. 2 Rural and Irvinestown No. 1 Rural, viz., 13·5 and 12·4 respectively; and the lowest in Enniskillen Urban, viz., 3·3.

Of the persons enumerated in the County in 1901, 87·59 per cent. were born therein, 8·66 per cent. in other Counties of the Province of Ulster; 0·99 per cent. in Leinster; 0·24 per cent. in Munster; 1·22 per cent. in Connaught; 1·91 per cent. in Great Britain; and 0·37 per cent. were born abroad. Birthplace of the Inhabitants. (Table 10.)

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas.

The County contains one such Area, viz., Enniskillen. In 1891 the population of this Area amounted to 5,570; in 1901 it was 5,412, showing a decrease of 158 persons, or 2·8 per cent.; in the rural portions of the County the decrease was 12·6 per cent. Civic Areas.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Fermanagh in 1901:—

RELIGIOUS PROFESSIONS	1901	
	Number of Persons.	Percentage of Total Population.
Roman Catholics, . . . . .	26,286	55·3
Protestant Episcopalians, . . . . .	25,086	38·3
Presbyterians, . . . . .	1,282	2·0
Methodists, . . . . .	5,744	7·9
All other Denominations (and Religions unascertained), . . . . .	101	0·2
Information refused, . . . . .	6	0·0
Total, . . . . .	65,430	100·0

Religious Professions. (Table 10.)

From the above Table it will be seen that of the total population of the County in 1901, 55·3 per cent. were Roman Catholics, 38·3 per cent. Protestant Episcopalians, 2·0 per cent. Presbyterians, 7·2 per cent. Methodists, and 0·2 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 56·4 per cent.; Protestant Episcopalians, 36·2 per cent.; Presbyterians, 1·8 per cent.; Methodists, 0·5 per cent.; and members of all other Denominations, 0·1 per cent. of the population of the County as then constituted.

The following Statement shows the Educational status of the Inhabitants of the County of Fermanagh, in 1891 and 1901, in so far as relates to the degree of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the percentages are based being those for the County as constituted in the respective years:—

DEGREES OF ELEMENTARY EDUCATION	Rate per cent of Total Population	
	1891	1901
Read and Write, . . . . .	64.0	71.0
Read only, . . . . .	12.7	8.1
Illiterate, . . . . .	23.0	20.9
<b>Total, . . . . .</b>	<b>100.0</b>	<b>100.0</b>

From the above it will be seen that whereas, according to the Returns of 1891, only 64.0 per cent. of the Inhabitants, of all ages, could "read and write," in 1901, 71.0 per cent. could do so; that the percentage of the population who could "read only" in 1891 was 12.7, and in 1901, 8.1; and that the percentage of the "illiterate" fell from 23.0 in 1891 to 20.9 in 1901.

In 1891 15.4 per cent. of the inhabitants aged five years and upwards were illiterate (10.2 per cent. of the males, and 15.5 of the females); in 1901 the percentage was but 13.1 (13.5 of the males, and 12.6 of the females).

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 19.8 per cent. of Roman Catholics, 9.5 per cent. of Protestant Episcopalians, 5.6 per cent. of Presbyterians, 4.1 per cent. of Methodists, and 2.0 per cent. of "all other Denominations" were illiterate.

The number of children attending school in the County of Fermanagh, according to the Census of 1891 (week ending 30th May), was 9,385, or 39.7 per cent. of persons aged 5 years and under 20 in the County as then constituted; in 1901 the number returned (for week ending 11th May) was 8,213, or 45.6 per cent. of the persons aged 5 and under 20.

In 1891 the number of persons in the County of Fermanagh (as then constituted) returned as Sick, on the night of the Census, was 516, or one in every 145 of the population; in 1901 the number so returned was 425, or one in every 182 of the population; of the latter number 308 were at their own homes, and 117 were in hospital.

The number of persons returned in 1891 as receiving relief under the Poor Law System was 567, or one in every 145 of the population; of this number 589 were inmates of Workhouses, and 118 were in receipt of outdoor relief; in 1901 the number returned was 544, or one in every 129 of the population; 363 of these being in the Workhouses, and 182 on outdoor relief.

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Divisions for the Medical Relief of the Poor under the Medical Charities Act; which Divisions, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of Marriages registered in the County of Fermanagh during the ten years ending 31st March, 1901, was 2,995, equal to an average annual rate of 4.2 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4.8 per 1,000.

The number of Births registered in the County during the ten years was 15,555, affording an average annual rate of 19.4 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23.0 per 1,000.

The Deaths registered during the decennium amounted to 11,708, being equal to an average annual rate of 14.8 per 1,000; the corresponding rate for the whole of Ireland was 18.2 per 1,000.

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Fermanagh, amounted to 5,403 (2,506 males and 2,795 females); the number for the decade ending 31st March, 1891, was 10,156; for that ending 31st March, 1881, 10,514; for that ending with March, 1871, 16,864; and for that ending with March, 1861, 17,372; making a total of 54,311 for the fifty years.

(a) The increase is attributed to research.

(b) The decrease is attributed to the temporary removal of a rectory to England.

(a) The town of Enniskillen stands on the townlands of Beldragh or Holywell, Faughard, Malley, and Tullyvar, in which its area and valuation are included, as referred to in 1891.

(b) The division is attributed to irregularity and anomaly.

(c) The irregularity refers to the house and population returned for the townland of Beldragh, in Derryville Parish, in 1891, should have been referred to the townland of the same name in Glacashan Parish.

(a) The number of Bellanacrossed Town is in Sligo D.E.D., British Isles Union. See page 81. This portion stands on the townlands of Bellanacrossed and Bellinacrossed, in which the area and valuation are included. (b) The number is attributed to the town of Inverness, in 1901, of houses and population which properly belonged to the town of Inverness.

(c) The Town of Inverness stands on the townlands of Milbain and Townhill, in which the area and valuation are included; it has an estimated area of 200 acres including the houses of Inverness Town Workhouse.

(a) The Cities Areas comprise all Municipal Boroughs, Urban Sanitary, and Towns of 5,000 inhabitants and upwards.  
 (b) The plan of classification in the County Table is the same as that adopted in County Down, and may be thus described:—  
 The value of a house, as to its quality, may be ascertained by the number of windows, and the number of the principal of the walls and roof. If windows be adopted to express the quality of every house in a scale of each of these elements, and if the number be obtained for every house be added together, a new scale of windows will be produced, giving the position of each house in a scale compounded of all its elements, i.e., high class value.  
 Four classes have been adopted, and the result is, that in the lowest of the four classes are occupied houses principally built of mud or other materials not considered a good form house, having from two to nine rooms and windows, and in the first class of all houses of a better description than the preceding.  
 The accommodation which the houses afford has also been arranged under four classes, viz.—  
 First Class accommodation consisting of two class houses, occupied by one family.  
 Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses occupied by two or three families.  
 Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.  
 Fourth Class accommodation includes all 4th class houses, 2nd class houses with more than one family, 3rd class houses with four or more families, and 1st class houses inhabited by six or more families.

#### NOTE.

It has been considered desirable (as in 1871, 1881 and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County and City of Londonderry, and propose giving similar Tables from time to time, for each County in the Province of Ulster, at such intervals as the progress of the work will permit.

# CENSUS OF IRELAND, 1901.

## COUNTY AND CITY OF LONDONDERRY.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the County (Administrative) and City of Londonderry from the Census Returns of 1901.

### SUMMARY.

The County (Administrative) and City of Londonderry cover an area of 102,315 statute acres, or 26 per cent. of the total area of the country.

The number of persons in the County and City of Londonderry according to the Census was—in 1881, 164,061; in 1891, 152,009; and according to the recent Census, 144,404 (66,692 Males and 75,312 Females), or 4.9 per cent. less than in 1881.

The number of distinct Families in the County and City at the time of the late enumeration was 38,451, the average number of persons in a family being thus 4.9, and the number of Inhabited Houses was 29,692, showing an average of 4.8 persons to each house. In calculating these averages, the Special inmates of Public Institutions have been omitted.

The number of Occupiers (or Heads of Families) in occupation of less than five acres in 1901 was 92,175, or 79.8 per cent. of the total number of Families in the County and City, and of these 2,305, or 2.5 per cent. of the total number of Families were occupiers of one room; 4,798, or 5.2 per cent., occupiers of two rooms; 4,049, or 4.4 per cent., occupiers of three rooms; and 5,131, or 5.6 per cent., occupiers of four rooms.

The number of Tenements of One Room in the County and City was 2,303, comprising 670 cases in which the room had only one occupant; 1,182 where the room had 4, 3, or 4 occupants; 270 cases in which there were 5, 6, or 7 occupants; and 51 cases where the occupants exceeded 7 in number, including 6 cases of 10 persons, 4 of 11 persons, and 4 of 12 or more persons in the room.

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1881 and 1901; and the increase or decrease during the twenty-two years.

COUNTY DISTRICTS	Population		Increase or Decrease between 1881 and 1901		Rate per cent.
	1881	1901	Number		
			Increase	Decrease	
Coleraine Urban	6,845	6,856	115	—	1.7
Lisnaveley Urban	2,796	2,692	—	104	3.7
Coleraine Rural	36,572	35,399	—	3,613	13.6
Lisnaveley Rural	30,873	27,331	—	3,642	12.8
Londonderry No. 1 Rural	17,047	14,980	—	2,067	12.1
Magheraduff Rural	44,976	33,992	—	5,984	13.8
Total of County	118,809	104,518	—	14,291	12.0
Londonderry City	83,200	39,886	4,392	—	20.8
Total of County and City	102,009	144,404	—	7,005	5.0

From the foregoing Statement it will be observed that there was an increase of 5,992, or 5.8 per cent., in Londonderry City; of 113, or 1.7 per cent., in Coleraine Urban; and a decrease in each of the other County Districts. The highest percentage of decrease took place in Coleraine Rural and Magheraduff Rural, viz., 13.6 and 13.8 respectively; and the lowest in Lisnaveley Urban, viz., 3.7.

Of the persons enumerated in the County and City in 1901, 84.20 per cent. were born therein; 12.09 per cent. in other Counties of the Province of Ulster; 0.69 per cent. in Leinster; 0.26 per cent. in Munster; 0.84 per cent. in Connaught; 2.54 per cent. in Great Britain; 0.56 per cent. were born abroad; and 5 persons were born at sea.

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas.

The County contains three such Areas, viz., Londonderry, Coleraine, and Lisnaveley. In 1881 the population of these Areas amounted to 42,841; in 1901 it was 49,642, showing an increase of 6,791 persons, or 15.8 per cent.; in the Rural portions of the County the decrease was 12.1 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County and City of Londonderry in 1901:—

RELIGIOUS PROFESSIONS	1901.		Religious Professions (Table XVI)
	Number of Persons.	Per cent. of Total Population.	
Roman Catholics	60,526	45.2	
Protestant Episcopalians	37,804	19.8	
Presbyterians	45,692	31.5	
Methodists	1,445	1.0	
All other Denominations (and Religious unascertained)	4,160	2.9	
Information refused	38	0.0	
Total	144,404	100.0	

From the above Table it will be seen that of the total population of the County and City in 1901, 45.2 per cent. were Roman Catholics, 19.8 per cent. Protestant Episcopalians, 31.5 per cent. Presbyterians, 1.0 per cent. Methodists, and 2.9 per cent. members of other Religious Denominations. In 1881 Roman Catholics increased 44.6 per cent.; Protestant Episcopalians, 19.0 per cent.; Presbyterians, 12.8 per cent.; Methodists, 0.6 per cent.; and members of all other Denominations, 5.0 per cent. of the population of the County as then constituted.

Education,  
(Tables 200  
and 201.)

The following Statement shows the Educational status of the Inhabitants of the County and City of Londonderry in 1891 and 1901, in so far as relates to the degree of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the percentages are based being those for the County as constituted in the respective years—

Degrees or Statements Enumerated	Rate, per cent. of Total Population	
	1891	1901
Read and Write	65.2	70.7
Read only,	13.9	8.7
Illiterate,	20.9	20.6
Total	100.0	100.0

From the above it will be seen that whereas, according to the Returns of 1891, only 65.2 per cent. of the Inhabitants, as a whole, could "read and write," in 1901, 70.7 per cent. could do so, that the percentage of the population who could "read only" in 1891 was 13.9, and in 1901, 8.7, and that the percentage of the "illiterate" fell from 20.9 in 1891 to 20.6 in 1901.

In 1891 14.3 per cent. of the Inhabitants aged five years and upwards were illiterate (14.1 per cent. of the males, and 14.5 of the females); in 1901 the percentage was but 11.4 (11.9 of the males, and 11.8 of the females).

Religious  
Professions  
and Education  
(Table 202.)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 17.8 per cent. of Roman Catholics, 10.1 per cent. of Protestant Episcopalians, 9.8 per cent. of Presbyterians, 9.0 per cent. of Methodists, and 9.6 per cent. of "all other Denominations" were illiterate.

School  
Attendance,  
(Table 203.)

The number of children attending school in the County and City of Londonderry, according to the Census of 1891 (week ending 5th May), was 12,405, or 29.8 per cent. of persons aged 5 years and under 20 in the County and City; in 1901 the number returned (for week ending 14th May) was 19,684, or 49.1 per cent. of the persons aged 5 and under 20.

The Sick,  
(Table 204.)

In 1891 the number of persons in the County and City of Londonderry returned as Sick, on the night of the Census, was 612, or one in every 337 of the population; in 1901 the number so returned was 799, or one in every 304 of the population; of the latter number 337 were at their own homes, and 462 were in hospital.

Paupers,  
(Table 205.)

The number of persons returned in 1891 as receiving relief under the Poor Law System was 1,024, or one in every 148 of the population; of this number 680 were inmates of Workhouses, and 344 were in receipt of outdoor relief; in 1901 the number returned was 1,068, or one in every 152 of the population, 690 of these being in the Workhouses, and 378 on outdoor relief.

Marrriages,  
Births, and  
Deaths,  
(Table 206.)

For the purposes of Registration of Births, Deaths, and Marrriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of Marrriages registered in the County and City of Londonderry during the ten years ending 31st March, 1901, was 7,849, equal to an average annual rate of 4.8 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4.8 per 1,000.

The number of Births registered during the ten years was 34,168, affording an average annual rate of 22.1 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 26.0 per 1,000.

The Deaths registered during the decennium amounted to 27,365, being equal to an average annual rate of 18.4 per 1,000; the corresponding rate for the whole of Ireland was 18.2 per 1,000.

Emigrants,  
(Table 207.)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County or City of Londonderry amounted to 5,153 (4,076 males and 4,076 females); the number for the decade ending 31st March, 1891, was 28,799; for that ending 31st March, 1881, 26,509; for that ending with March, 1871, 16,843; and for that ending with March, 1861, 27,598, making a total of 109,869 for the fifty years.

(1) The 1st Class Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 5,000 inhabitants and upwards.  
 (2) The plan of classification in this Census is the same as that adopted in former Censuses, and may be thus described:—  
 The value or condition of a house, as to its quality, may be considered to depend mainly on:—  
 (a) its extent, as shown by the number of rooms; (b) its quality, as shown by the number of the windows, and (c) its solidity as denoted, as shown by the material of the walls and roof. It was deemed to be expedient to express the position of every house in a scale of three divisions, and if the divisions thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house on a scale compounded of all the elements, i.e., their relative value.  
 Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of wood or other perishable material, having only one room and windows in the third or better description of houses, covering from one to five rooms and windows, in the second, that might be considered a good farm house, having from five to nine rooms and windows, and in the first class of all houses of a better description than the preceding.  
 The accommodation which the houses afford has also been arranged under four classes, viz:—  
 First Class accommodation consisting of 1st class houses, occupied by one family.  
 Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses occupied by two or three families.  
 Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families.  
 Fourth Class accommodation including all 4th class houses, 2nd class houses with more than one family, 3rd class houses with four or more families, and 1st class houses inhabited by six or more families.

\* The expression "Primary" has been applied to Irish Grammar schools, even 2001, in which the instruction is exclusively English, while those which in whole or in part have been directed in "Gaelic" mean the former kind of school. The practice of a foreign language in the school does not imply a higher standard of general instruction than is to be found where such is almost in vogue.

#### NOTE.

It has been considered desirable (as in 1871, 1881 and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the stations of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Monaghan; and propose giving similar Tables for the remaining Counties of the Province of Ulster, at such intervals as the progress of the work will permit.

## COUNTY OF MONAGHAN.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Monaghan from the Census Returns of 1901.

### SUMMARY.

The (Administrative) County of Monaghan covers an area of 819,761 statute acres, or 1·8 per cent. of the total area of the country.

The number of persons in the County of Monaghan according to the Census was—in 1881, 102,758; in 1891, 86,206; and according to the recent Census, 74,611 (37,196 Males and 37,415 Females), or 19·5 per cent. less than in 1881.

The number of distinct Families in the County at the time of the late enumeration was 17,160, the average number of persons in a family being thus 4·3, and the number of Inhabited Houses was 17,028, showing an average of 4·8 persons to each house. In calculating these averages the Special Inmates of Public Institutions have been omitted.

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 13,762, or 80·1 per cent. of the total number of families in the County, and of those 2 were occupiers of part of a room only; 898, or 5·3 per cent. of the total number of Families in the County, were occupiers of one room; 4,861, or 29·5 per cent., occupiers of two rooms; 5,894, or 34·3 per cent., occupiers of three rooms; and 2,107, or 12·3 per cent., occupiers of four rooms.

The number of Tenements of One Room in the County was 899, comprising 372 cases in which the room had only one occupant, 422 where the room had 2, 3, or 4 occupants, 93 cases in which there were 5, 6 or 7 occupants; and 12 cases where the occupants exceeded 7 in number, including 2 cases of 10 persons, and 1 of 11 persons in the room.

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901; and the increase or decrease during the decade—

County Districts	Population		Increase or Decrease between 1891 and 1901		
	1891	1901	Number		Rate per cent.
			Increase	Decrease	
Carriksmascon Urban	1,379	1,374	95	—	3·8
Castleblayney Urban	1,731	1,576	—	145	8·4
Cloone Urban	2,882	2,068	30	—	1·8
Monaghan Urban	2,382	2,051	—	5	0·2
Carriksmascon Rural	16,060	13,570	—	2,586	14·9
Castleblayney No. 1 Rural*	17,744	14,742	—	3,002	16·9
Cloone No. 1 Rural	6,881	3,900	—	991	13·4
Castlebl No. 2 Rural	7,678	6,239	—	1,158	15·5
Monaghan Rural	20,478	20,369	—	4,109	19·9
<b>Total</b>	<b>86,206</b>	<b>74,611</b>	<b>—</b>	<b>11,595</b>	<b>19·5</b>

\* See Castleblayney Rural.

From the foregoing Statement it will be observed that there were increases in Carriksmascon Urban and Cloone Urban of 3·8 and 1·8 per cent. respectively, and decreases in all the other County Districts. The highest per-centage of decrease took place in Castleblayney No. 1 Rural and Castleblayney No. 2 Rural, viz., 16·9 and 15·8 respectively; and the lowest in Monaghan Urban and Castleblayney Urban, viz., 0·2 and 0·4 respectively.

Of the persons enumerated in the County in 1901, 80·68 per cent. were born therein; 0·99 per cent. in other Counties of the Province of Ulster; 1·63 per cent. in Leinster; 0·25 per cent. in Munster; 0·83 per cent. in Connaught; 0·36 per cent. in Great Britain; 0·31 per cent. were born abroad; and one person was born at sea.

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas.

The County contains two such Areas, viz., Cloone and Monaghan. In 1891 the population of these Areas amounted to 4,970, in 1901 it was 5,060, showing an increase of 80 persons, or 0·6 per cent.; in the Rural portions of the County the decrease was 16·3 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Monaghan in 1901—

Religious Professions	1901	
	Number of Persons	Percentage of Total Population
Roman Catholics	54,737	75·4
Protestant Episcopalians	9,636	19·8
Presbyterians	9,332	19·8
Methodists	423	0·6
All other Denominations (and Religion unascertained)	261	0·5
Information Refused	14	0·0
<b>Total</b>	<b>74,611</b>	<b>100·0</b>

Civic Areas.

Religious Professions (Table 222)

From the above Table it will be seen that of the total population of the County in 1901, 75·4 per cent.

com. Methodists and 0.5 per cent. members of other Religious Denominations. In 1801 Roman Catholics formed 73.3 per cent.; Protestant Episcopalians, 18.0 per cent.; Presbyterians, 12.6 per cent.; Methodists, 9.6 per cent. and members of all other Denominations, 0.6 per cent. of the population of the County as then constituted.

The following Statement shows the Educational status of the Inhabitants of the County of Monaghan in 1891 and 1901, in so far as relates to the degree of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the percentages are based being those for the County as constituted in the respective years:—

Degrees of Elementary Education.	Rate per cent. of Total Population	
	1891	1901
Read and Write.	61.3	69.9
Read only.	14.0	9.4
Illiterate.	25.0	21.4
Total.	100.0	100.0

From the above it will be seen that whereas, according to the Returns of 1891, only 61.3 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 69.2 per cent. could do so, that the percentage of the population who could "read only" in 1891 was 14.0, and in 1901, 9.4, and that the percentage of the "illiterate" fell from 25.0 in 1891 to 21.4 in 1901.

In 1891, 17.8 per cent. of the Inhabitants aged five years and upwards were illiterate (17.8 per cent. of the males, and 17.8 of the females); in 1901 the percentage was but 13.7 (14.0 of the males, and 13.5 of the females).

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 16.7 per cent. of Roman Catholics, 7.3 per cent. of Protestant Episcopalians, 8.9 per cent. of Presbyterians, 9.2 per cent. of Methodists, and 8.0 per cent. of "all other Denominations" were illiterate.

The number of children attending school in the County of Monaghan according to the Census of 1891 (week ending 30th May), was 18,414, or 44.1 per cent. of persons aged 5 years and under 20 in the County as then constituted; in 1901 the number returned (for week ending 11th May), was 20,019, or 46.8 per cent. of the persons aged 5 and under 20.

In 1891 the number of persons in the County of Monaghan (as then constituted) returned as Sick, on the night of the Census, was 517, or one in every 167 of the population; in 1901 the number so returned was 484 or one in every 154 of the population, of the latter number 293 were at their own homes, and 191 were in hospital.

The number of persons returned in 1891 as receiving relief under the Poor Law System was 839, or one in every 97 of the population, of this number 467 were inmates of Workhouses, and 402 were in receipt of outdoor relief; in 1901 the number returned was 889, or one in every 84 of the population, 494 of these being in the Workhouses, and 395 on outdoor relief.

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of Marriages registered in the County of Monaghan during the ten years ending 31st March, 1901, was 3,581, equal to an average annual rate of 4.5 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4.8 per 1,000.

The number of Births registered in the County during the ten years was 15,127 affording an average annual rate of 18.9 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23.0 per 1,000.

The Deaths registered during the decennium amounted to 14,721, being equal to an average annual rate of 18.3 per 1,000; the corresponding rate for the whole of Ireland was 18.2 per 1,000.

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Monaghan amounted to 6,301 (2,546 males and 3,755 females); the number for the decade ending 31st March, 1891, was 12,427; for that ending 31st March, 1881, 18,356; for that ending with March, 1871, 45,853, and for that ending with March, 1861, 26,842, making a total of 75,879 for the fifty years.

(a) The decrease was attributed to emigration and removals.

(b) Killybegs Town stands on the lands of Killybegs Glebe and Shannon, in which its area and valuation are included, it has an estimated area of 13 acres.

(c) The decrease is attributed to one house which property belonged to Clonsilla townland having been returned in Killybegs townland in 1881.

(a) Dellaneys Town stands on the boundary of Moilaghmore West and Quaglough, in which its area and valuation are included; (b) estimated area in 1891.  
 (c) The increase was attributed to emigration. (d) The decrease was attributed to remarriage.  
 (e) The increase is attributed to persons and to some of the residents living on the Continent.  
 (f) The increase was attributed to persons and to some of the residents living on the Continent.  
 (g) The increase in population for 1901 is attributed to the emancipation in Monaghan County of 100  
 of houses and population which belonged to the rural portion of Killymore. (h) The remainder is on the D.E.D. of Monaghan Union. See page 41.

(a) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 inhabitants and upwards.  
 (b) The rural areas of the County, in the primary table is the same as that adopted in former Censuses, and may be thus described:—  
 The rural areas of a County, as in its quality, may be considered to depend mainly on—  
 1st. Its extent, as shown by the number of houses, 2nd, its quality, as shown by the number of its windows, and 3rd, its fertility or sterility, as shown by the amount of its crops and past. If suitable be adopted to express the position of every house in a week of each of these elements and if the windows thus defined be, every house be added together, a new series of numbers will be obtained, giving the position of each house on a scale comprised of all the elements, i.e., their actual value.  
 For details have been adopted, and the result is, that in the lowest of the four classes are occupied houses previously built of mud or other perishable material, being only one room and smaller, in the third a better description of houses, varying from one to four rooms and windows, in the second, which might be considered a good high house, having from five to nine rooms and windows, and in the first class of all houses of a better description than the preceding.  
 The accommodation which the houses afford has also been arranged under four classes, viz.—  
 First class accommodation consisting of 1st class houses, occupied by one family.  
 Second class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.  
 Third class accommodation consisting of 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by two or three families.  
 Fourth class accommodation includes all 4th class houses, 2nd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses occupied by six or more families.

#### NOTE.

It has been considered desirable (as in 1871, 1881 and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Tyrone; and propose giving similar Tables from time to time for each of the remaining Counties of the Province of Ulster, at such intervals as the progress of the work will permit.

## COUNTY OF TYRONE.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Tyrone from the Census Returns of 1901.

### SUMMARY.

The (Administrative) County of Tyrone covers an area of 806,688 statute acres, or 8.9 per cent. of the total area of the country.

The number of persons in the County of Tyrone according to the Census was—in 1881, 197,719; in 1891, 171,401; and according to the recent Census, 150,567 (74,250 Males and 76,317 Females), or 19.2 per cent. less than in 1881.

The number of distinct Families in the County at the time of the late enumeration was 33,476, the average number of persons in a family being thus 4.4; and the number of Inhabited Houses was 33,297 showing an average of 4.5 persons to each house. In calculating these averages, the Special Institutes of Public Institutions have been omitted.

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 25,439, or 76.0 per cent. of the total number of families in the County, and of these 1,577, or 5.6 per cent., were occupiers of one room; 10,838, or 31.0 per cent., occupiers of two rooms; 8,773, or 26.9 per cent., occupiers of three rooms; and 4,405 or 13.9 per cent., occupiers of four rooms.

The number of Tenements of One Room in the County was 1,877, comprising 679 cases in which the room had only one occupant; 925 where the room had 2, 3, or 4 occupants; 228 cases in which there were 5, 6 or 7 occupants; and 45 cases where the occupants exceeded 7 in number, including 19 cases of 9 persons, and 4 of 10 persons in the room.

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901; and the increase or decrease during the decade:—

County Districts	Population		Increase or Decrease between 1891 and 1901.		
	1891	1901	Increase	Decrease	Rate per cent.
Cookstown Urban	3,861	3,531	-	330	-8.1
Dungannon Urban	3,819	3,694	-	125	-3.1
Omagh Urban	4,652	4,789	137	-	2.9
Strabane Urban	4,018	5,033	1,015	-	24.4
Castleberg Rural	13,528	12,789	-	1,739	-12.9
Clogher Rural	14,587	14,214	-	2,671	-18.7
Cookstown Rural	24,320	22,044	-	3,276	-13.5
Dungannon Rural	32,500	25,982	-	6,518	-20.0
Irvinestown No. 2 Rural*	5,103	4,335	-	768	-15.0
Omagh Rural	39,734	37,764	-	5,970	-15.0
Strabane No. 1 Rural	22,511	20,368	-	3,143	-14.0
Total	171,401	150,567	-	20,834	-12.2

\* New Town.

From the foregoing Statement it will be observed that there were increases in Omagh Urban and Strabane Urban of 2.9 and 0.4 per cent. respectively, and decreases in all the other County Districts. The highest per-centage of decrease took place in Clogher Rural, viz., 15.7, and in Irvinestown No. 2 and Omagh Rural, viz., 15.0 each respectively; and the lowest in Dungannon Urban and Cookstown Urban, viz., 3.1 and 8.1 respectively.

Of the persons enumerated in the County in 1901, 90.02 per cent. were born therein; 7.49 per cent. in other Counties of the Province of Ulster; 0.34 per cent. in Leinster; 0.16 per cent. in Munster; 0.29 per cent. in Connaught; 1.06 per cent. in Great Britain; 0.44 per cent. were born abroad; and 4 persons were born at sea.

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas.

The County contains four such Areas, viz., Cookstown, Dungannon, Omagh, and Strabane. In 1891 the population of these Areas amounted to 17,818; in 1901 it was 17,047, showing a decrease of 271 persons, or 1.6 per cent.; in the rural portions of the County the decrease was 13.8 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Tyrone in 1901:—

Religious Professions	1901	
	Number of Persons	Percentage of Total Population
Roman Catholics	82,404	54.7
Protestant Episcopalians	38,398	25.5
Presbyterians	29,858	19.7
Methodists	3,311	2.2
All other Denominations (and Religion unascertained)	1,592	0.9
Information refused	48	0.0
Total	150,567	100.0

From the above Table it will be seen that of the total population of the County in 1901, 54.7 per cent. were Roman Catholics, 25.5 per cent. Protestant Episcopalians, 19.7 per cent. Presbyterians,

2.8 per cent. Methodists, and 0.9 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 54.6 per cent.; Protestant Episcopalians, 22.8 per cent.; Presbyterians, 19.6 per cent.; Methodists, 2.0 per cent.; and members of all other Denominations 1.0 per cent. of the population of the County as then constituted.

The following Statement shows the Educational status of the Inhabitants of the County of Tyrone in 1881 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years:—

Degrees of Elementary Education.	Rate per cent. of Total Population.	
	1881.	1901.
Read and Write,	60.7	68.1
Read only,	14.6	10.0
Illiterate,	24.8	21.9
Total	100.0	100.0

From the above it will be seen that whereas, according to the Returns of 1881, only 60.7 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 68.1 per cent. could do so; that the per-centage of the population who could "read only" in 1881 was 14.6, and in 1901, 10.0; and that the per-centage of the "illiterate" fell from 24.8 in 1881 to 21.9 in 1901.

In 1881 17.4 per cent. of the inhabitants aged five years and upwards were illiterate (17.1 per cent. of the males and 17.7 of the females); in 1901 the per-centage was but 14.9 (14.5 of the males, and 14.0 of the females).

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 18.9 per cent. of Roman Catholics, 11.3 per cent. of Protestant Episcopalians, 5.9 per cent. of Presbyterians, 3.6 per cent. of Methodists, and 4.4 per cent. of "all other Denominations" were illiterate.

The number of children attending school in the County of Tyrone, according to the Census of 1891 (week ending 30th May), was 30,790; or 37.3 per cent. of persons aged 5 years and under 20 in the County as then constituted; in 1901 the number returned (for week ending 11th May), was 17,073, or 39.4 per cent. of the persons aged 5 and under 20.

In 1891 the number of persons in the County of Tyrone (as then constituted) returned as Sick, on the night of the Census, was 899, or one in every 172 of the population; in 1901 the number so returned was 882, or one in every 158 of the population; of the latter number 616 were at their own homes, and 266 were in hospital.

The number of persons returned in 1891 as receiving relief under the Poor Law System was 1,374, or one in every 125 of the population; of this number 873 were inmates of Workhouses, and 501 were in receipt of outdoor relief; in 1901 the number returned was 1,843, or one in every 82 of the population; 875 of these being in the Workhouses, and 968 on outdoor relief.

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act, which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of Marriages registered in the County of Tyrone during the ten years ending 31st March, 1901, was 7,207, equal to an average annual rate of 4.6 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4.8 per 1,000.

The number of Births registered in the County during the ten years was 22,341, affording an average annual rate of 20.1 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23.0 per 1,000.

The Deaths registered during the decennium amounted to 28,730, being equal to an average annual rate of 17.9 per 1,000, the corresponding rate for the whole of Ireland was 18.2 per 1,000.

The number of Emigrants during the ten years ending 31st March, 1891, who stated that they were from the County of Tyrone, amounted to 12,538 (5,830 males and 6,778 females); the number for the decade ending 31st March, 1891, was 28,960; for that ending 31st March, 1881, 28,674; for that ending with March, 1871, 23,723; and for that ending with March, 1861, 32,623, making a total of 126,588 for the fifty years.

(a) The decrease was attributed to removals.

(b) The increase was attributed to a policeman's staff of signposts having been collected since 1901.

(c) The decrease was attributed to disallowance and removals.

(d) Fivemileston Town stands on the boundary of Ballyvaughan and Fivemileston, in which its area and valuation are included, its extended area is 11,300.

(e) The decrease is attributed to migration and removals.

(a) The decrease was attributed to emigration and removals.

(b) Beaharville Town stands on the townland of the same name, in which its area and valuation are included, it has an estimated area of 4 acres, it was not returned separately in 1901.

(c) Coal Island Town stands on the townlands of Beaharville, St. Donagherry Parish, Gortinagh and Gortinagh, in Tullybrannagh Parish, in which its area and valuation are included; its estimated area is 29 acres. The increase in 1901 was attributed to removals to the town from the townlands of Gortinagh, and Beaharville in Tullybrannagh P. D. C., Glenties Union and Gortinagh.

(d) Derry Town stands on the townland of the same name, in which its area and valuation are included. It has not previously been returned separately.

(e) The decrease is attributed to emigration and removals.

(a) The decrease was attributed to migration and removals.

(b) In some of the Mills Towns straddles are some townlands, in which the area and population are included; the unshaded area is 12 acres.

(c) The remainder reported that some houses, etc., were included in Lettisla townland in 1901 which properly belonged to Mullagh.

(d) The decrease is attributed to removals.

(a) The Urban Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 5,000 inhabitants and upwards.  
 (b) The plan of classification in the Summary Table is the same as that adopted in former Censuses, and may be thus described—  
 1st. In respect to height, as to the quality, and the quality, as shown by the number of its windows, and 2nd, the quality or durability, as shown by the material of its walls and roof. If numbers be adapted to express the number of every house in a town of each of these elements, and if the position of all be obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale composed of all its elements, i.e. their actual size.  
 Four classes have been adopted, and the result is that in the lowest of the four classes are comprised houses principally built of mud or other perishable material being only one room and window; in the second a better description of houses, varying from one to four rooms and windows; in the second, and 3rd class are considered a good town house, having from five to six rooms and windows, and in the first class of all houses of a better description than the previous.  
 The accommodation which the houses of 2nd, 3rd, and 4th class have been arranged under four classes, viz.—  
 First Class accommodation consisting of 1st class houses, occupied by one family, or of 2nd class houses, occupied by two or three families.  
 Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 3rd class houses, occupied by two or three families.  
 Third Class accommodation consisting of 3rd class houses, with not more than one, or two or three families, or of 4th class houses, occupied by four or five families.  
 Fourth Class accommodation includes all 4th class houses, 2nd class houses with more than one family, 3rd class houses with four or more families, and 1st class houses occupied by six or more families.

#### NOTE.

It has been considered desirable (as in 1881 and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness, should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appeared to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, have published Tables for the several Counties in the Province of Ulster, and now present Summary Tables for that Province, and a Synopsis of the results given in the Summaries prefixed to the County Books. Similar information has been published for the Provinces of Leinster, Munster, and Connaught.

It has not been considered necessary to compile Provincial Summaries of Tables VII., XVII., XXI., XXII., and XXXII.

# CENSUS OF IRELAND, 1901.

## PROVINCE OF ULSTER.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give summaries of the results obtained respecting the several Counties in Ulster from the Census Returns of 1901; similar information is here given for the Province, together with a synopsis of the County summaries.

### SUMMARY.

The Province of Ulster covers an area of 5,684,724 statute acres, or 36·3 per cent of the total area of the country.

The number of persons in the Province of Ulster according to the Census was—in 1881, 1,745,075; in 1891, 1,619,814; and according to the recent Census, 1,564,696 (769,504 Males and 819,232 Females), or 2·3 per cent. less than in 1891.

The number of distinct Families in the Province at the time of the late enumeration was 339,563, the average number of persons in a family being thus 4·6, and the number of Inhabited Houses was 309,431, showing an average of 4·7 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted.

The number of Occupiers (or heads of Families) in occupation of less than five rooms in 1901 was 281,574, or 69·0 per cent. of the total number of families in the Province, and of these 29 were occupiers of part of a room only, 17,176 or 5·1 per cent. of the total number of Families in the Province were occupiers of one room; 82,693 or 94·6 per cent. occupiers of two rooms; 73,311 or 31·6 per cent. occupiers of three rooms; and 60,265 or 17·8 per cent. occupiers of four rooms.

The number of Tenements of One Room in the Province was 17,189, comprising 5,706 cases in which the room had only one occupant, 8,326 where the room had 2, 3, or 4 occupants; 2,479 cases in which there were 5, 6, or 7 occupants; and 609 cases where the occupants exceeded 7 in number, including 78 cases of 10 persons, 37 of 11 persons, and 13 of 12 or more persons in the room.

The following Statement shows, by Counties, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901; and the increase or decrease during the decade —

Counties, &c.	Population.		Increase or Decrease between 1891 and 1901.		
	1891.	1901.	Increase.	Decrease.	Rate per cent.
ANTRIM COUNTY.	296,059	300,000	—	11,980	3·7

LONDONDERRY COUNTY BOROUGH.	34,201	8,290	4,600	—	30·8
MONAGHAN COUNTY.	66,206	74,321	—	11,505	19·5
TYRONE COUNTY.	171,601	170,567	—	20,628	11·7
<b>Total.</b>	<b>1,629,804</b>	<b>1,662,628</b>	<b>—</b>	<b>9,965</b>	<b>2·9</b>

From the foregoing Statement it will be observed that there were increases in the County Boroughs of Belfast and Londonderry of 27·8 and 20·2 per cent. respectively, and decreases in all the counties. The highest per-centage of decrease in the Counties took place in Monaghan and Cavan, viz., 18·5 and 12·8 respectively; and the lowest in Antrim and Down, viz., 5·7 and 6·2 respectively.

Of the persons enumerated in the Province in 1901, 94·75 per cent. were born therein; 1·20 per cent. in Leinster; 0·36 per cent. in Munster; 0·69 per cent. in Connaught; 2·68 per cent. in Great Britain; 0·32 per cent. were born abroad, and 42 persons were born at sea.

Towns having, in 1901, a population of 2,000 and upwards are classified as Urban Areas.

The Province contains 33 such Areas. In 1891 the population of these Areas amounted to 461,711; in 1901 it was 550,146, showing an increase of 88,435 persons, or 19·2 per cent.; in the rural portions of the Province the decrease was 30·8 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the Province of Ulster in 1901:—

Religious Professions.	1901.	
	Number of Persons.	Per-centage of Total Population.
Roman Catholics.	688,201	44·2
Protestant Episcopalians.	209,213	13·5
Presbyterians.	186,522	12·0
Methodists.	67,273	4·3
All other Denominations and Religions unascertained, unreturned, &c.	40,987	2·7
<b>Total.</b>	<b>1,592,196</b>	<b>100·0</b>

From the above Table it will be seen that of the total population of the Province in 1901, 44·2 per cent. were Roman Catholics, 22·8 per cent. Protestant Episcopalians, 20·9 per cent. Presbyterians, 3·0 per cent. Methodists, and 3·1 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 46·0 per cent.; Protestant Episcopalians, 22·4 per cent.; Presbyterians, 25·3 per cent.; Methodists, 2·6 per cent.; and members of all other Denominations, 2·8 per cent. of the population of the Province as then constituted.

Education  
(Tables 202,  
and 203-211)

The following Statement shows the Educational status of the Inhabitants of the Province of Ulster in 1861 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the Province as constituted in the respective years.

DEGREES OF ELEMENTARY EDUCATION.	Rate per cent. of Total Population.	
	1861.	1901.
Read and Write. (Total pop.)	68.5	70.6
Illiterate.	31.5	29.4
Total.	100.0	100.0

From the above it will be seen that whereas, according to the Returns of 1861, only 68.5 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 70.6 per cent. could do so, that the per-centage of the population who could "read only" in 1861 was 19.5, and in 1901, 7.9, and that the per-centage of the "illiterate" fell from 31.5 in 1861 to 21.5 in 1901.

In 1861 15.4 per cent. of the inhabitants aged five years and upwards were illiterate (15.1 per cent. of the males and 15.7 of the females); in 1901 the per-centage was but 13.6 (12.6 of the males and 13.5 of the females).

Religious  
Professions  
and Education  
(Table 202)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 19.4 per cent. of Roman Catholics, 9.6 per cent. of Protestant Episcopalians, 5.0 per cent. of Presbyterians, 4.7 per cent. of Methodists, and 4.1 per cent. of "all other Denominations" were illiterate.

School  
Attendance  
(Table 203)

The number of children attending school in the Province of Ulster, according to the Census of 1891 (week ending 30th May), was 225,543, or 49.4 per cent. of persons aged 5 years and under 20 in the Province as then constituted; in 1901 the number returned (1st week ending 11th May), was 225,701, or 47.2 per cent. of the persons aged 5 and under 20.

The Sick.  
(Table 204)

In 1861 the number of persons in the Province of Ulster (as then constituted) returned as Sick, on the night of the Census, was 2,425, or one in every 172 of the population; in 1901 the number so returned was 10,359, or one in every 153 of the population; of the latter number 5,697 were at their own homes, and 4,752 were in hospital.

Paupers.  
(Table 205)

The number of persons returned in 1861 as receiving relief under the Poor Law System was 16,140, or one in every 100 of the population; of this number 8,900 were inmates of Workhouses, and 7,240 were in receipt of outdoor relief; in 1901 the number returned was 18,463, or one in every 86 of the population; 4,561 of these being in the Workhouses, and 8,912 on outdoor relief.

Marriages,  
Births, and  
Deaths.  
(Table 206)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrars' Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of marriages registered in the Province of Ulster during the ten years ending 31st March, 1901, was 88,418, equal to an average annual rate of 5.5 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4.8 per 1,000.

The number of Births registered in the Province during the ten years was 388,268, affording an average annual rate of 24.2 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23.0 per 1,000.

The Deaths registered during the decennium amounted to 308,754, being equal to an average annual rate of 19.0 per 1,000; the corresponding rate for the whole of Ireland was 19.2 per 1,000.

Emigration  
(Table 207)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the Province of Ulster, amounted to 86,455 (42,167 males and 44,288 females); the number for the decade ending 31st March, 1891, was 216,934; for that ending 31st March, 1881, 240,110; for that ending with March, 1871, 291,240; and for that ending with March, 1861, 341,361, making a total of 1,088,590 for the fifty years.

(a) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 1,000 inhabitants and upwards.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, so far as its quality, may be considered to depend mainly on—  
 1st, the extent, or shape, of the number of rooms; 2nd, its quality, as shown by the number of its windows; and 3rd, its solidity or durability, as shown by the material of its walls and roof. If, therefore, be adopted the position of every house in a scale of merit, the position of each house in a scale may be determined by the number of its rooms, the number of its windows, and the material of its walls and roof. If, therefore, be adopted the position of every house in a scale of merit, the position of each house in a scale may be determined by the number of its rooms, the number of its windows, and the material of its walls and roof.

Four classes have been adopted, and the result is, that in the lowest of the four classes are assigned houses principally built of mud or other perishable material, having only one room and window, in the third a better description of house, varying from one to four rooms and windows; in the second a house which might be described as a good farm house, having from five to nine rooms and windows; and in the first class of all houses of a better description than the preceding.

The accommodations which the houses fitted has also been arranged under four classes, viz.—  
 First Class accommodations consisting of 1st class houses, occupied by one family, or of 2nd class houses, occupied by two or three families.  
 Second Class accommodations consisting of 2nd class houses, with one family each, or second class houses, with two or three families, or 3rd class houses, with one family each.  
 Third Class accommodations comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses, with one family each.  
 Fourth Class accommodations comprising all 4th class houses, with one family; 3rd class houses, with two or three families; 2nd class houses, with two or three families; or 1st class houses, with one family.
